

2018 International Conference on Sustainable Environmental Technologies (ICSET 2018)

Co-organized and to be hosted by Mapúa University, Intramuros, Manila, Philippines
August 19 – 21, 2018

“CALL FOR FULL PAPER SUBMISSION”

Theme: Innovation and Technopreneurship for Sustainable Environment and Development

The Mapúa University (Philippines) in cooperation with Chia Nan University of Pharmacy and Science and National Cheng Kung University in Taiwan are organizing the 2018 International Conference on Sustainable Environmental Technologies (ICSET 2018) to be held in Intramuros, Manila, Philippines on **August 19-21, 2018**.

The ICSET 2018 priority areas are:

1. Advanced Oxidation Technologies
2. Agricultural structures and environmental pollution
3. Aerosol, air pollution, quality and climate change
4. Environmental biochemistry, ecology, physics and geosciences
5. Environmental modeling and analytical methods
6. ICT (information and communication technologies) for the environment
7. Marine and coastal environment
8. Natural resources, wastes and utilization
9. Renewable energy and resources
10. River, wetland water and catchment management
11. Soil and groundwater environment
12. Water treatment and resources
13. Wastewater technology and water reclamation
14. Building industry and environmental sustainability
15. Risk assessment and disaster reduction
16. Paddy fields and environmental challenges

Full papers shall be submitted to icset2018@mapua.edu.ph and registration follows after receipt of acceptance notification through this link: <https://icset2018.mapua.edu.ph/Register.aspx>. Additional information could be accessed through the conference website link <https://icset2018.mapua.edu.ph/>. **Participants, from industry, government agency and non-government agency and other higher educational institutions, as listener are welcome.**

All submitted papers will undergo initial peer review and accepted papers will be presented in the conference, abstracts will be published as conference proceedings, and full paper will be published in the participating journals listed below after journal review process. These journals are indexed in SCOPUS, ESCI, SCIE, SSCI. You may contact icset2018@mapua.edu.ph for inquiry.

The **dates to remember** are shown below.

Start of the full paper submission: **September 15, 2017**

Deadline of full paper submission: April 15, 2018

Deadline of early bird registration: **April 15, 2018**

Issuance of Acceptance Notification: Within **four to twelve weeks after paper submission**

Deadline of online regular registration: August 18, 2018

On-site registration: August 19, 2018

Criteria for Paper Selection:

1. Originality and innovation
2. Social benefits
3. Collaborative research and development
4. Paper technical content
5. Quality of paper writing
6. Sustainability and potential further studies

Participating Journals:

1. Sustainable Environment Research (Scopus, ESCI);
2. Taiwan Water Conservancy (Scopus);
3. Paddy and Water Environment (Scopus, SCIE);
4. Environments (ESCI)

There will be winners for best paper, best presentation, best collaborative study, and best collaborative paper.
